MK Battery Moving to New Corporate Offices.

MK Battery will shortly be relocating its corporate offices in order to better serve our customers. This new facility, located just around the corner from our present headquarters, will house our administrative offices as well as our Anaheim distribution center. The move is scheduled for the fourth quarter of 2007. Stay tuned for further details.

MK Battery
Power You Can Depend On.

“I Shoulda Used MK”

MK Battery – Power You Can Depend On.

For 25 years, MK Battery has set the standard for batteries used in power mobility. It is no wonder that many leading wheelchair manufacturers trust MK as the energy source for their equipment. Consumers demand higher performance and reliability because nobody wants to be left stranded. When run-time, cycle-life and safety matter, depend on MK Battery.

MK to Expand Distribution to Hawaii.

MK Battery proudly announces the planned opening of our 23rd U.S. distribution center, in Honolulu Hawaii. We have entered into an agreement with a local Honolulu supplier to provide route delivery and spent battery pickup service similar to that of our Continental U.S. based operations. It was rather easy to convince Dave Renshaw, our Western Region Sales Representative, to visit the Islands and share the news of our decision to provide delivery service to a region we have neglected for long enough. According to Dave, "the response was very positive" so look for MK Powered batteries to be available for local delivery in Hawaii before the end of this year. If your organization does business in Hawaii and you would like more information about our service capabilities in the region, please contact MK Battery at 800-372-9253.

Legislative Links.

Serious legislative issues are impacting all who serve the HME industry. We are continuing to lobby, alongside our industry partners, to have CMS reexamine recent decisions regarding reimbursement. We invite all HME providers to join in this collective appeal. Please visit the following legislative links for easy access to communication with your elected representatives:

MK Battery Enhanced HME Accreditation Kit.

Documentation and continuing education programs are critical aspects of the CMS approved accreditation process for HME providers. Surveyors look for evidence of compliance in safety and maintenance processes. When it comes to batteries, you can depend on MK Battery to help you meet the stringent policy and procedure requirements as mandated by ACHC, JCAHO, CHAP, HQAA and other accreditation agencies. Our enhanced HME Accreditation Kit features a comprehensive array of safety and maintenance documentation and technical training tools, all conveniently packaged on one CD-ROM. The kit is available free of charge to all HME providers. Contact us for your copy.

CD Includes These Electronic Files:

- Narrated Mobility Technical Training PowerPoint Presentation
- Technical Training Written Exam with Answer Key
- GEL/AGM Technical Manual
- Wheelchair Application Chart
- GEL/AGM Battery MSDS
- Environmental Protection Plan
- The HME Battery Guide
- Open Circuit Voltage Chart for Battery Testing
