

MK 70 CAPTEST Battery Capacity Tester and Charger Tester

Test All Your Batteries and Chargers With Just One Device

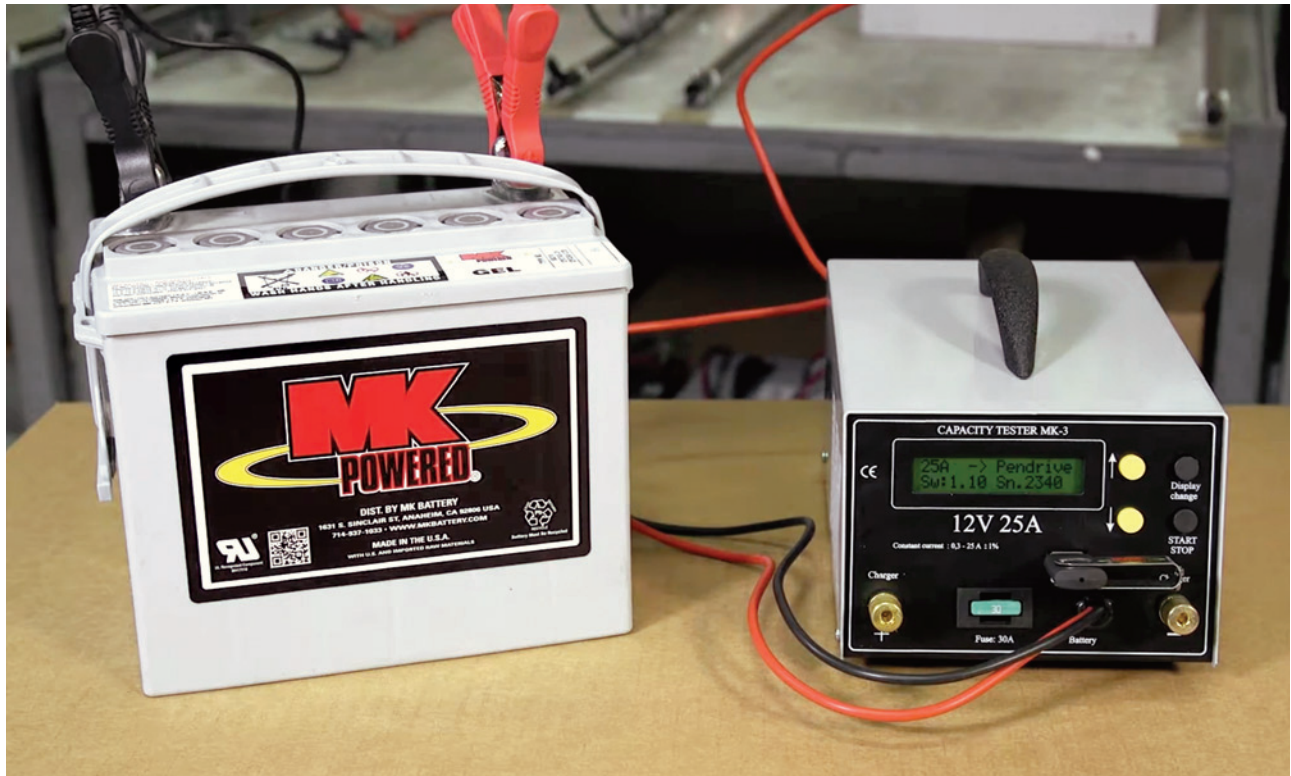

The MK70 is a true discharge machine with the ability to download capacity results to your computer via a USB connection. The software is very user friendly and will give an accurate assessment of the battery capacity or charger quality. Reports can be printed and/or stored to justify battery or charger replacement.

- 12 Volt Battery Discharge Tester
- 12 Volt and 24 Volt Charger Tester
- Tests Gel and AGM Batteries
- Instructional video available on website
- Test Download and Graph Print Features
- Lightweight and Compact Design
- Software Included

Enhance Customer Experience While Improving Profitability

Using Proper Test Equipment Can Help You To:

- **Build Credibility**
Use the most accurate testing technology
- **Reduce Warranty Repairs**
 - Improve the consumer experience
 - Reeducate consumers/caregivers to promote better charging habits
- **Increase Visibility**
Offer free routine battery testing to promote consumer visits and increase complementary sales opportunities
- **Improve Profitability**
Repurpose instead of scrapping usable batteries
 - In-home repairs are not cost effective
 - Minimize repeat service calls by repurposing verified “healthy” batteries as field replacements
 - Use repurposed batteries for demo equipment, replacement for uninsured cases or donations
 - Your investment in one MK70 pays off with just 2 or 3 pairs of repurposed batteries
